

SROI REPORT BY KERRY INDEV

The social value was calculated by adding all outcomes and subtracting from deadweight and attribution. Further, the social value created (SVC) is divided by total investments to arrive at the SROI value. A total SROI value of 9.45 is generated for 5 projects.

The graphs mentioned show the SROI value generated versus investment by Kerry Indev on the projects. KI invest in women empowerment (10.6%), Skill Development (6.95%), and Environment (19.69%) out of the total investments but these projects brought maximum social value. Education and health, water & Sanitation projects (6.09%) have proportionally less against the investment, but it has a long-term impact.

Area	SVC %	Investment %
Women Empowerment	10.66	7.13
Health	6.09	17.24
Education	3.84	66.58
Skill	6.95	2.378
Environment	19.69	6.6
